WARDS'

It is imperatively necessary to the health of persons residing in a Southern climate, especially in Malarious Districts, where CHILLS and FEVER are prevalent, to take some Tonic Stimulant during the Spring and Summer menths, in order to fortify the system against the insidious attacks of Malaria, to strengthen the system, to enable it to throw of malarial influences, and to invigorate the whole body against the debilitating and enervating influences of the climate.

This is the design and effect of WARD'S BITTERS. Many years of close ob-This is the design and effect of WARD'S BITTERS. Many years of close observation and patient investigations have been spent by the originator of this Bitters, in the effort to make a perfect combination of Vegetable Remedles, which would purify the blood, and at the same time prove an invigorating tonic. The result has fully equalted his highest expectation. The combination of SARSAPARILLA and BLACK ROOT, with the best tonics known in the vegetable kingdom, is a happy one, purifying the blood, stimulating the Liver, while invigorating the whole system.

Any combination of remedies, however, would be useless and even hurtful if made with an inferior Liquor or Spirits. The lower grades of Whiskey are especially baneful and poisenous to the system. The highest merit we claim for these Bitters is, that it is made of

PURE COPPER - DISTILLED WHISKEY. sufficient age, and ranking among the BEST BRANDS made in the United States. When the blood is impoverished, and is deficient in Iron especially; where the system has been enfechied by long, protracted attacks of Chills and Fevers, the addition of one or two drachms of Pyrophosphate Iron will enrich the blood and fortify the system, thus preventing the recurrence of the periodical attack. For this purpose it is HVALUABLE, and any one suffering from the debilitating effect of Chills and Fevers, will never regret having given it a trial.

C. C. WARD & BRO.,

A Safe and Speedy Cure for Neuralgia and Rheumatism in all their various Forms. The formula by which this remedy is prepared is no doubt known to a majority of the Medical Profession, and considered the most reliable yet discovered. Many have falled, however, in its use, after witnessing almost miraculous curves produced by it, and ignorant of the true cause of their failure, have attributed it to the unreliability of the prescription. The fact is, that it is almost impossible to procure the fresh and reliable articles from which it is prepared, and upon which its success depends. We attribute the majority because of the care with which we adored the majority the majority in the care with which we adored the majority the fact the care with which we adored the majority of the care with which we adored the majority of the care with which we adored the majority of the care with which we adored the majority of the care with which we adored the majority of the care with which we adored the majority of the care with which we adored the majority of the care with which we adored the care with which its prepared to the care with which we adored the care with the the wonderful success of our Preparation alone to the care with which we select the material, and conduct the process of its composition.

We have bestowed great care and patient investigation in perfecting this remedy, and our success with it has been of such a gratifying character that we considently recommend it to the attention of the Profession, and to those who are unfortunately suffering from these most distressing and painful afflictions, in any of their various forms. We are satisfied that a single dose of it will convince them of its virtues, and that in a major-
